

Allstate Propulsion Labs

1 THE CLUSTER *a rocket that fires more than one motor simultaneously*
Identify and adapt to simultaneous factors affecting the Law Dept

a
Recognizing the new environment of in-house law

b
Change in the strategy of resources, structure, and relationships

c
Why? How the industry dynamics have created the demand for change

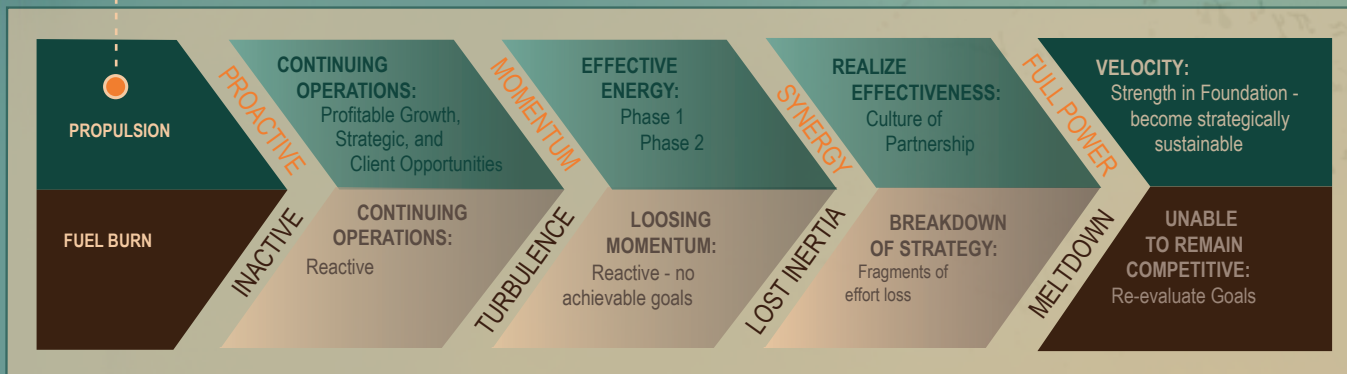

2 THE BOOSTER *on a multi-stage rocket the booster refers to the sections*
Develop a multi-stage strategy to educate and streamline the Law Dept

a
Velocity Training:
Propulsion vs. Fuel Burn

b
Propellant of Change:
Law Resources

c
The Rocketeers:
Strategic Partner Roles

PROTOTYPE A. VELOCITY TRAINING SUBJECT MATERIAL

THE GLOSSARY

Rocketeer: A person who works with space rockets; a rocket enthusiast.

Booster: On a multi-stage rocket this refers to the sections (stages)

Cluster: A rocket that fires more than one motor simultaneously

Propellant: The term is used to denote mixtures of oxidizers and fuels

Hyperterminal Velocity: A situation where a rocket is traveling faster than terminal velocity

Prototype: An initial, development design used to test out principles and concepts

Woosh Generator: Humorous, genderless, politically correct way to refer to the propulsion device in a rocket

ALLSTATE FUTURESTATE

Rocketeers of future law
